After Many Years.

In sawing through a white oak log, three feet in diameter, a few days ago, a sawyer at Blanchester, O., came across the date 1780 carved in the wood near the middle of the log. The figures were very distinct. The carving was doubtless done when the tree was young, and in some way the wood grew around and over it without filling up the carved furrows.

I'm All Uastrung,

Is the remark of many a nervous individual. He or she will soon cease to talk that way after beginning and persisting in a course of Kretz resigned, and E. C. Johnson, of Hostetter's Stomach Bitters. ITEMS OF NEWS PICKED UP AT THE NATIONAL CAPITAL

Sayings and Doings of the Official Heads of the Government.

Secretary Carlisle has appointed Scott Nesbit, of Missouri, appointment clerk of the treasury, vice Herman of the internal revenue bureau, vice Nesbit promoted. These changes will take effect July 1st.

Secretary Carlisle has refused to reverse his decision as to the deporting of three Chinamen who are now in San Francisco. These Chinamen left New Orleans several months ago for Bluefields, with the intention of settling there. They changed their minds and returned to New Orleans. Admission to the United States was denied them and they were ordered to depart for

Advices received by the marine hospital service confirm previous reports relative to the plague in Foo Chow, China, and say it is an established epidemic. It is confined to the city proper, most of the deaths occurring within the city walls near the gates. Several cases are alleged to have oc curred among the natives of a village on the island of Nantan, in the vicinity of a foreign settlement, but Consul Hixson is unable to say that these are real cases of plague.

Baron von Thielman, the new Ger man ambassador, arrived in Washing ton Friday night from Hamburg. H was accompanied by his wife and two young daughters with a retinue o eight servants. In the absence of President Cleveland, Baron von Thiel man will deliver his credentials to Secretary Olney and enter at once up on the duties of his office, seizing the first opportunity when the president returns to be formally presented. The new ambassador is not a stranger to Washington, having been secretary of legation at the capital from 1874 to 1878, when Baron Schloezer was min-

Chapman to be Transferred.

Collector Trammell has triumphed and Colonel Chapman will be transferred from the revenue office at At lanta to Missouri. This was what Trammell was after and what Scere tary Smith insisted upon, but Commissioner Miller could see no good reason why Chapman should go, es pecially as he had been rendering officient service and was more than any other person fully informed of the whitecap operations in north Georgia. After a big row Miller was allowed to have his way temporarily and the combatants sheathed their swords and returned to Georgia. But no sooner had they left town than Secretary Smith changed his tactics. He went over Commissioner Miller's head to Carlisle and convinced him that Chapman's transfer was necessary to peace and harmony in Georgia. Thereupon Carlisle called unhurt. in Miller and expressed to him very firmly the opinion that Chapman ought to go. The latter threw up the sponge. He was tired of fighting Chapman's battle single-handed. The latter had no friend at work, so it was arranged that he should be transferred to Missouri. An Arkansas democrat now in the service will succeed Chap-

Spain Must Pay Up.

The United States have demanded he immediate payment of \$1,509,000 which Spain has owed to Antonio Maximo Mora, an American citizen, since 1886. During one of the Cuban revolts twenty years ago, the Spanish government arrested A. M. Mora, an American citizen, and seized his valuable sugar plantation. Before Spain admitted its mistake, it had collected from the Mora estate more than \$2,-000,000. A settlement was insisted on by Secretaries Fish and Bayard, and, finally, under pressure, Spain agreed o pay \$1,500,000.

Before the last congress adjourned it passed a joint resolution requesting he president to insist upon the paynent of the sum agreed upon between the governments of Spain and the United States in liquidation of the claim of Antonio Maximo Mora against the government of Spain, with interest from the time when the said amount should have been paid under the agreement. This resolution passed both houses and was approved by the president, and, therefore, has all the orce of law.

Spain has made many excuses for lelaying the payment of this just claim, but now it appears that further excuse will not be tolerated. On the day that Mr. Olney became secretary of state in place of Mr. Gresham, he sent a letter to Spain through the United States minister at Madrid, demanding the immediate payment of \$1,500,000 which the Spanish government has owed to Mr. Mora since 1886. Mr. Olney, according to report, calls the attention of the Spanish government to the fact that the justice \$150,000, at New Orleans, La., and the R. M. of this claim is not in dispute, and McCoy Lumber C ., capital \$125,000, at Helethat no further delay will be tolerated.

NATURAL GAS IN TENNESSEE

Causes Several Explosions --- Indica-

A few days ago there was an explosion of natural gas near Whitebuff, in Dickens county, Tenn., that threw up several tons of stone and earth. Sunday another explosion occurred near the scene of the first one. Great Variable Friction Feed Saw Mill blocks of stone were thrown out and a hole made in the ground fifteen feet across and nearly as deep. The roaring of the escaping gas was heard for some distance. The stone bears traces | Crowley, La., and Athens, Tenn. An oil mill is

> Largest Cotton Mill in America. The largest cotton mill in America is to be built at once in Adams, Mass. The mill will employ over 1,000 people and will have 80,000 spindles and 2,100 looms. It will cost \$1,000,000. It will be 425 feet long and 116 feet wide, with an L, and will be five stories high. The enterprise is headed by

TRADE TOPICS.

Bradstreets Review of Business for the Past Week.

Bradstreet's report of business for the past week says:

"The feature of the business week is the customary check to activity in trading in staple articles of merchansummer, with the accompanying stock taking in some lines. In addition to pointing to improvement is the reaction of prices of cotton, coal, wheat, flour, corn, oats, pork and lard from previous relatively high levels. In almost all other directions reports on the business situation and outlook are exceptionally favorable.

"The New York stock market keeps its strength in the face of high exchange rates and the absence of foreign interest.

"Favorable crop prospects, especiwhich realizing sales have little effect. The return of one of the bond syndicate leaders from Europe is regarded as a bullish influence.

"Notwithstanding the reaction in the price of cotton, cotton goods in some instances are higher, with the market quiet and likely to remain so until after July 4th. Woolen goods are quiet with mills fairly well employed where labor troubles have not

"Trading in wool has been very heavy, and while sales at the west have been made at low prices, quotations have since advanced 1001 cent per pound, thus apparently placing wool in line with leather, wheat, corn, cotton, iron and steel. Among the staples which have enjoyed a revival the demand for iron and steel continues, perhaps, the most striking feature. In few instances certain grades of iron have enjoyed the unusual distinction of having quotations advanced twice within the week. Since the rise in prices began pig iron has advanced 25 and steel billets about 30 per cent in pressed into service.

"In the southern states business continues at about mid-summer proportions, with improvement in dry goods and groceries, at Chattanooga and Atlanta, a better feeling in trade circles at Birmingham, and only a moderate expansion of business at

LAIDLAW WINS HIS SUIT.

It Cost Russell Sage \$40,000 to Use Him as a Bomb-Proof.

The Laidlaw-Sage jury, at New York, returned to court Tuesday afwas received with applause.

against Russell Sage for \$50,000 damages for the injuries received by the explosion of a bomb in Mr. Sage's office in 1891. Mr. Laidlaw claimed that Mr. Sage caught hold of him and held him (Laidlaw) between Norcross, the bomb-thrower, and himself. Laidlaw has been permanently injured, while Mr. Sage escaped comparatively

KENTUCKY PRIMARIES

Indicate That Hardin Will be Nomi-

nated for Governor. Returns from Kentucky's primaries are still far from complete, but results thus far indicate that General Hardin will receive the nomination from the democrats for governor at the coming convention. The votes in the convention number 879 and of these about 700 have been heard from. Hardin leads Cassius M. Clay, Jr., by nearly fifty votes. One hundred counties will send uninstructed delegates. The currency question will figure prominently, the gold standard men at presant holding the whip hand.

GROWTH OF THE SOUTH.

The Industrial Situation as Reported

for the Past Week. The reports of indu trial conditions in all parts of the south for the past week are to the effect that the favorable conditions of manufacturing and mercantile business have been increased by the advance in the price of iron and the firmners in quo'ations for all staple products The large manufacturing concerns throughout the south will advance wages shortly, and some of them have already done so. Iron products of all kinds are advancing in sympathy, with pig iron, the bar iron quotation having been advanced \$1.00 during the week. Texti e mills continue to be reported in large numbers, representing investments of local The Trad sman's list of new cotton ni is for the week includes a mill at Rock Hill, S. C., to cost \$200,000, one at Goldsboro, N. C., capitalized at \$100,000, one co ting \$75,000 at Wagener, S. C., and others at New Decatur, Ala., ai d Pulaski, Tenn. A \$10,000 knitting mill is reported at Athens, Ga., and one at Durham, N. C. A large cotton mill is to be contablished at Divining large. established at Birmingham, Ala., by removal frem a northern point.

Among the important new industries established or incorporated in the southern states during the week are the Kanawaha Valley Coal Co., of Charleston, W. Va., capital \$1,000,000; the Empire Coal Mining Co., of Ashboro, N.C., with \$600,000 capital, and the Cotton Seed Delinting and O.I Co., of New Orleans, La., with \$400.0 0 capital. A sugar mill to cost \$250,-000 is to be established at Henrietta, Texas, and a manufacturing company with the same capital at Savannah, Gr. The American Delinter Co., capital \$200,000, has been chartered at Little Rock, Ark.; the Linton Coated Paper Co., with the same capital, at Richmond, Va. Machine and Ship Build ng Co., capital been chartered at Crown Hill, W. Va., with \$100,000 capital; the Economy Electric Co. espital \$51,000, at Parkersburg, W. Va.; the Kenton Paper Co., with the same capital, at Lou sville, Ky., and the McGregor Cotton Oil Co., c pi al #: 0,000, at McGregor, Texas.

There is also reported the organization at Big Sandy, Texas, of the Big Sandy Lumber Co., with \$5,000 ospital of the Arcadia Lumber Co., cap.tal \$250,000, at Monroe, La., and of p aning mills with \$10,000 capital at Galon, Texas. A \$10.000 oil mill is to be built at Cullman, Als., and implement works with the same capital have been organized at Chattanooga, Tenn. Charged With Embezzlement. C. M. Mills, formerly of Tryon, N. C., was arrested at Asheville Tuesday on charge of embezzling money order

BANKER AGNEW INDICTED.

Charged With Crookedness and Mis-

application of Fands. E. W. Agnew, president of the First National bank of Ocala, Fla., has been indicted by the grand jury of the United States court Jacksonville, on charges of embezzlement, abstraction dise, due to the near approach of mid- and misapplication of funds of the bank and of making false entries on the books of the bank by crediting his this, perhaps the only other thing not personal account with sums of money aggregating \$25,000. The bank sus pended two mouths ago and has since been in charge of National Bank Examiner J. R. McDonald. The affairs were found to be in bad shape and it is doubtful if the depositors will get 10 per cent of their money.

Agnew is under bond for appearance for trial in the United States court. One of the counts in the indictment is placing a check for \$3,400 payable to the bank to his private credit. Anally in southwestern territory, and the other is the embezzlement of \$17,500 rise in iron and steel prices, create a in bank notes, greenbacks and coin. bullish professional temper, under He is charged with buying worthless stocks and bonds of a par value of \$25,000 for a nominal consideration and placing them to his personal account on the books of the bank at the

M'LAUGHLIN SENTENCED.

New York's Ex-Police Inspector Glven a Term in Prison.

At New York, Wednesday, Judge Barrett sentenced Police Inspector McLaughlin to two years and six months in the state prison upon his conviction of the charge of extortion. Judge Barrett, in passing sentence,

"I shall not at this time add to the weight of your humiliation by a single harsh expression. In truth I have nothing in my heart but regret for a wrecked life. In considering what punishment will be adequate, I have sought all reasonable grounds for the exercise of elemency. I realize that your conviction carried with it to an unusual degree, its own punishment. I recognize also the fact that in your price, and reserve plants are being case a just verdict was perhaps of greater consequence than any individual penalty, for such a verdict tends to fortify and uphold public faith in the efficacy of the law, even when dealing with great and all-pervading influences.

JAMES GENTRY'S DEFENSE.

Madge Yorke's Murderer Makes Charges Against Another Woman. A Philadelphia dispatch says: Sen-

sational rumors have come to light that there will be a change in the defense in the trial of James B. Gentry for the murder of Actress Madge ternoon, having found a verdict of Yorke. It is hinted that the defense \$40,000 for the plaintiff. The verdict | will now endeavor to show that Gentry killed the girl because he believed William R. Laidlaw brought suit | that her love for Miss Lida Clark, her actress friend and companion, was of a morbid and unnatural character similar to that shown to have existed in the Freda Ward and Alice Mitchell

> Mineral Water Company Organized The Philadelphia Lithia Water Com pany has been incorporated at Raleigh, N. C., and granted letters patent. Cornelius E. Baird and Warren Harper, of Philadelphia, and William A. Middleton, of Harrisburg, Pa., are the incorporators and the capital stock is \$100,000. The main office is to be at Raleigh. The charter gives the company the right to own, sell and develop mineral lands, bore wells for mineral or medicinal waters.

Will Not Withdraw. At the session of the Woman's Press Club of Georgia at Lookout inn a motion to withdraw from the general federation of woman's clubs on account of the admittance of negroes was tabled after a heated discussion. Delegates were appointed to the meeting of the federation in Louisville next May.

Another Advance in Rails. The Illinois Steel Company at Chicago have announced an advance of \$2 a ton in the price of steel rails, the former

price being \$23. The increase is at tributed to the increased cost of ore, coke and labor. It is said by the company that a further appreciation in values will be justified before the close of the year. The Great Canal Opened.

With imperial pomp and ceremony, and amid the plaudits of thousands upon thousands of people, the great when measured by time of canal connecting the Baltic and North from one portion to another. seas was opened to commerce Thursday. The weather was perfect, and

Cities Without Slums.

In 1925 we shall be at least a Nation of 140,000,000; in 1950, 250,000,090, and within the next century, without doubt, over 500,000,000. The United States can easily support, without crowding, 1,000,000,000 of inhabi-

These figures are startling, but no intelligent man can study the facts without admitting their probable correctness. In no respect are they as wonderful as would have been a prophecy to the Pilgrims in 1620 of what would happen before 1895. With a population in the United States of 500,000,000 or even 350,000,000, what will be the size of New York and Boston, and Chicago and Philadelphia, and Baltimore and the other great and growing cities? There is little doubt that more than half the civilized people of the earth are to find homes in urban communities. More and more the suburban territory will be absorbed to make room for the people who are driven out of the older parts by the advance of trade. For, in the city of the future, there will be no slums; no Five Points, no disease-breeding spots. The constantly improving methods of transit make cities covering 500 square miles of territory reasonably compact when measured by time of transit

New cities may be built in the interior, but on the coast, especially the the inauguration ceremony was highly Atlantic coast, the growth must be in the cities already built up. You cannot make more harbors. All the tremendous international traffic and travel of the increasing millions must pass through the seaports now existing. The growth of the Atlantic cities will very much more than keep pace with the growth of the country-Donahue's Magazine.

Solomon-Like Wisdom.

Before a Justice in the Circuit Court of Taschereau-Argenteuil, Canada, ap-The Consumers' Pure Ice Company, | peared two farmers of St. Andrews to ing Dr. Baker, the Professor of Anitomy of McGill College, Montreal, the court was still in doubt who owned the dog. So, before the counsel summed up, His Honor decided to apply a

practical test. The plaintiff and defendant were placed in two corners of the room. The dog was let loose. In response to Charlebois's (the defendant) solicitations, the dog approached reluctantly, but when Drion, called, the dog sprang to him, and eagerly licked his hands and wagged his tail. The evidence shown by the animal that it loved Drion and feared Charlebois was enough for the judge, and he therefore awarded the dog to the plaintiff. -New York Press.

How Hollanders Fight Sand. Three varieties of broom and sea grass have been planted by Hollanders to prevent the blowing or shifting of sand on the dunes and along the sandy banks of river. The fact that the sand may be salty does not prevent them from flourishing. While these methods succeed in the damp climate of Holland, it is by no means certain that they would apply here. -

In Southern Hospitals.

Some conception of the magnitude of the labors performed in field and hospital service by the officers of the medical corps of the Confederate army may be formed by the consideration

of the following general results: Year. Killed, Wounded. Prisoners. 51,313 70,000 1864-65.... 22 200 53,973 194,026

During the period of nineteen

months, January, 1862, to July, 1863, inclusive, over one million cases of wounds and disease were entered upon the Confederate field reports, and over four hundred thousand cases of wounds upon the hospital reports. The number of cases of wounds and diseases treated in the Confederate field and general hospitals were, however, greater during the following twenty-two months, ending April, 1865. It is safe to affirm, therefore, that more than 3,000,000 cases of wounds and diseases were cared for by the officers of the medical corps of the Confederate army during the civil war of 1861-'65. The figure of course do not indicate that the Confederacy had in the field an army approaching 3,500,000. On the contrary the Confederate forces engaged during the war, 1861-1865, did not exceed 600,000. Each Confederate soldier was on an average, disabled for greater or lesser period, by wounds and sickness, about six times during the war. - Galveston

The Melaphone.

This is an improvement on the telephone. The instrument originated in the west, and by its use it is said that the human voice can be heard over a mile. A dispatch from Cincinnati, O., states that the Melaphone was tested on a steamboat and that the pilot talked with parties on either shore as mine was in the past with the greatest case and distinctness. It is regarded by the steamboat men give new life and richness to the blood and of great value in river traffic.

A Slave From Boyhood.

(From the Red Wing, Minn., Republican. "I am now twenty-four years old," said Edwin Swanson, of White Rock, Goodhue County, Minn., to a Republican representative, "and as you can see I am not very large of stature. When I was eleven years old L became afflicted with a sickness which baffied the skill and knowledge of the physician. I was not taken suddenly ill but on the contrary I can hardly state the exact time when it began. The first symptoms were pains in my back and restless nights. The disease did not trouble me much at first, but it seemed to have settled in my body to stay and my bitter experience during the last thirteen years proved that to be the case. I was of course a child and never dreamed of the suffering in store for me. I complained to my parents and they concluded that in time I would outgrow my trouble, but when they heard me groaning during my sleep they became thoroughly alarmed. Medical advice was sought but to no avail; I grew rapidly worse and was soon unable to move about and finally became confined continually to my bed. The best doctors that could be had were consulted, but did nothing for me. I tried various kinds of extensively advertised patent medicines with but the same

"For twelve long years I was thus a sufferer in constant agony without respite, abscesses formed on my body in rapid succession and the world indeed looked very dark to me. About this time when all hope was gone and nothing seemed left but to resign myself to my most bitter fate my attention was called to Dr. Williams' Pink Pills for Pale People. Like a drowning man grasping at a straw, in sheer desperation I concluded to make one more attempt-not to regain my health (I dare not to hope so much) but if possible to ease my pain.

"I bought a box of the pills and they seemed to do me good. I felt encouraged and continued their use. After taking six boxes I was up and able to walk around the house. I have not felt so well for thirteen years as during the past year. Only one-year have I taken Dr. Williams' Pink Pills and I am able now to do chores and attend to light duties. -

"Do I hesitate to let you publish what I have said? No. Why should It It is the truth and I am only too glad to let other sufferers know my experience. It may help those whose cup of misery is as full to-day

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to restore shattered nerves. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They tuild up the blood, and Said Mrs. Fussy (who had kept the restore the glow of health to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overat 50 cents a box or six boxes for \$2.50, and may be had of all druggists, or direct by mail from Dr. Williams' Medicine Company, Schenectady, N. Y.
